Ultrasonic Welding Machine

Technical Specifications

POWER

4500 W

FREQUENCY

20 kHz

WELDING AREA

140 x 140 mm

SPECIFICATIONS	
Power supply	220 V, 60 Hz
Machine dimensions	800 x 900 x 1900 mm
Generator	Integrated full-bridge generator
Frequency tracking	Automatic
Weld time	0.01-9.99 s, adjustable
Welding action	Automatic downward press
Control system	ST industrial-grade control system
Air pressure	Adjustable
Operating mode	Time mode
Welding modes	Time / Energy / External control
